### EXAMINER'S AMENDMENT

1. This action is responsive to RCE received on Oct. 16, 2006.
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Surinder Sachar on Dec. 18, 2006.

The application has been amended as follows:

- **Claim 1** (currently amended): An image forming apparatus supervisory system configured to supervise a plurality of image forming apparatuses disposed at a plurality of user sides, said image forming apparatus supervisory system comprising:

a central supervisory apparatus configured to include a processor and to determine updated hardware in an applicable one or more of the plurality of image forming apparatuses;

a plurality of communications adapters configured to connect to the central supervisory apparatus by a communication line; a plurality of interfaces configured to connect each of the plurality of image forming apparatuses with each of the plurality of communications adapters;

a firmware download device provided in the central supervisory apparatus and configured to download prescribed updated firmware to an applicable one or more

image forming apparatuses in accordance with updated hardware of the one or more image forming apparatuses;

a firmware update device provided in each of the image forming apparatuses and configured to update firmware of the one or more image forming apparatuses with the updated firmware when the updated firmware is downloaded;

a hardware read device configured to read hardware information of each of the plurality of image forming apparatuses;

a hardware information transmission device configured to transmit the hardware information from the each respective image forming apparatuses to the central supervisory apparatus;

a database provided in the central supervisory apparatus and configured to store hardware information of the plurality of image forming apparatuses; and

a database update device configured to update the database based upon the hardware information when receiving the hardware information from the one or more image forming apparatuses;

a hardware information storage device provided in the each of the plurality of image forming apparatuses and configured to store its own hardware information;

a hardware information update device configured to update its own hardware information; and

a hardware read device provided in the hardware information update device and configured to read at least a version number of the hardware;

an information comparison device configured to compare the at least a version number with the hardware information stored in the hardware information storage device; and

a determination device configured to determine if the at least a version number conforms to the hardware information, wherein said hardware information update device updates its own hardware information with the at least a version number only when the at least a version number does conform to the hardware information.

- **Claims 9-10:** canceled.
- **Claim 11:** replace "9" after "claim" with -1-- at line 2;
- **Claim 12:** replace "9" after "claim" with -1-- at line 2;
- **Claim 13:** replace "9" after "claim" with -1-- at line 2;
- **Claim 15:** replace "9" after "claim" with -1-- at line 2;
- **Claims 21-30, 34, 41 and 42:** canceled
- Claim 43 (currently amended): An image forming apparatus supervisory system configured to supervise image forming means disposed at a plurality of user sides for forming an image, said image forming apparatus supervisory system comprising:
  - central supervisory means for remotely supervising image forming means and for determining updated hardware in an applicable one or more of the plurality of image forming apparatuses;
  - firmware download means for downloading prescribed updated firmware to an applicable one or more image forming means in accordance with updated hardware of

Art Unit: 2157

the applicable one or more image forming means, said firmware download means provided in the central supervisory means;

firmware update means for updating firmware of the one or more image forming means with the updated use firmware when the updated firmware is downloaded, said firmware update means being provided in each of the image forming means;

hardware read means in each respective image forming apparatus for reading hardware information of each of the plurality of image forming apparatuses;

hardware information transmission means for transmitting the hardware information from the each of the plurality of image forming apparatuses to the central supervisory apparatus;

database means provided in the central supervisory means and for storing hardware information of the plurality of image forming apparatuses; and

database update means for updating the database based upon the hardware information when receiving the hardware information from the one or more image forming apparatuses;

a hardware information storage means provided in the each of the plurality of image forming apparatuses and configured to store its own hardware information;

a hardware information update means configured to update its own hardware information; and

a hardware read means provided in the hardware information update means and configured to read at least a version number of the hardware;

an information comparison means configured to compare the at least a version number with the hardware information stored in the hardware information storage means; and

a determination means configured to determine if the at least a version number conforms to the hardware information, wherein said hardware information update means updates its own hardware information with the at least a version number only when the at least a version number does conform to the hardware information.

### **REASONS FOR ALLOWANCE**

3. Claims 1-3, 5-8, 11-20 and 43 are allowed over the prior art of record.
4. This communication warrants no examiner's reason for allowance, as applicant's reply makes evident the reason for allowance, satisfying the record as whole as required by rule 37 CFR 1.104 (e).
5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hussein A. El-chanti whose telephone number is (571)272-3999. The examiner can normally be reached on Mon-Fri 8:30-5:00.

Art Unit: 2157

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ario Etienne can be reached on (571)272-4001. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
